Math for Computer Science

Last modified: 2026-10-22 08:24:46 (PDT)

Welcome

These are the lecture notes for CSCI 201, math for computer science (discrete mathematics), at Western Washington University. General mathematics that several courses share, such as logic, sets and functions, is kept in the mathematics prerequisites site, and these notes link to it.

The notes are available in multiple formats:

- **HTML Website**: Navigate using the navbar for easy access to all pages
- **RevealJS Slides**: Each chapter can generate a presentation format with `-slides.html` suffix
- **PDF Handouts**: Each chapter can generate a PDF handout with `-handout.pdf` suffix
- **DOCX Documents**: Each chapter can generate a Microsoft Word document with `.docx` extension

About this website

This website is built with Quarto, an open-source scientific and technical publishing system. It was created from the Morrison-Lab/qwt template.

Building the website

To render the website locally:

```
quarto render
```

To preview the website with live reload:

```
quarto preview
```

The rendered output will be in the `_site/` directory, which GitHub Actions publishes to GitHub Pages.

License

The notes are released under the MIT License; see the `LICENSE` file.
